## Profile

Enthusiastic Data Science fresher with hands-on experience in data preparation, machine learning, and statistical analysis gained during an internship at Ai Variant. Proficient in scripting, Microsoft AI/ML tools, and extensive data analysis. Adept at translating technical insights into customer-oriented

## Education

2018 – 2022 Annamacharya institute of technology and science

Bachelor of Technology (B.Tech.) - Computer Science

## Projects

2023 Data Science Intern @Ai variant

Developed a user-friendly web app using advanced NLP techniques to tackle fake news. Analyzed sentiment from over 80,000 articles, providing near-instantaneous verification of news authenticity with reliable results within milliseconds, showcasing my NLP expertise.

2023 Data Science Intern @Ai variant

Oil Price Prediction App: Achieving 1.2% to 2% Variance Accuracy" Our app specializes in accurate oil price predictions, maintaining a remarkable variance range of 1.2% to 2%. Say goodbye to uncertainty in oil markets, as our app delivers reliable price forecasts with precision.

2022 Final Semester Project

Utilized data mining to predict app ratings on the Google Play Store, achieving a remarkable 93% accuracy by analyzing over 100,000 entries. This project aids app developers in identifying trending app categories, improving their decision-making for app development strategies.
